Shoulder Adaptor

ST-7JS

Assured Stable Shooting,
Dynamic Mobility for Camcorder !!

ST-7JS !!

Shoulder adaptor for Sony HVR-Z7/Z5

It is possible to look into the view finder of the camcorder.

It realizes stable shooting like a shoulder type camcorder.

It attaches a lithium-ion battery and so on directly.

Video signal relay terminal is equipped.

It can be attached to Protec VST-14 or Sony tripod adaptor base VCT-14/U14.

It is possible to attach a Sony lithium-ion battery to the rear of the shoulder adapter ST-7JS directly. It becomes possible to supply DC power to a camcorder with an optional power cable. DC out is equipped on the side panel to supply DC power to a light or a monitor.

There is a camera which is equipped with the output terminal with special type connectors. ST-7JS provides common type of output connectors so that they can make the cable connection / disconnection more convenient and stable.

A high-quality new generation camcorder can be attached to or removed from the tripod base at one-touch operation same as a shoulder type camcorder.

It fully supports a high-quality camcorder.

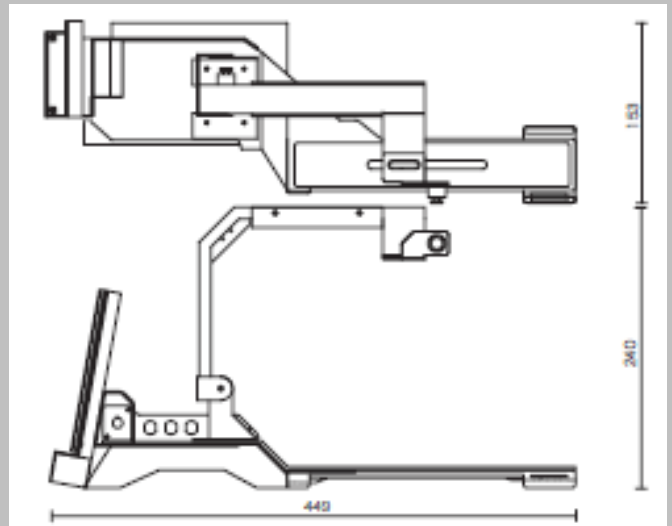

Option

DC-Z7J

DC cable for HVR-Z7/Z5
