

PROTECH®

Shoulder Adaptor

ST-7J series

Assured Stable Shooting

Dynamic Mobility for Camera Recorder

ST-7JS : Sony HVR-Z7 / Z5

ST-7JP : Panasonic AG-HPX175, AG-HMC155/151

ST-7JC : Canon XF-305 / 300

It attaches a lithium-ion battery and so on directly.

Video signal relay terminal is equipped.

It can be attached to a tripod adaptor base

ST-7J allows to attach a lithium-ion battery pack to the rear of the body directly. It becomes possible to supply DC power to a camcorder via D-Tap. DC out connector is equipped on the side panel for power supply to an additional light or a monitor.

ST-7J provides BNC connectors at the side of the body to realize the connection like a conventional shoulder type camcorder.

With ST-7J a high-quality handy held camcorder can be attached to the tripod base by one-touch operation like a shoulder type camcorder.

Option

DC-Z7J

DC cable for Sony HVR-Z7/Z5
