

Record a target sound with decreasing wind noise!!

## Substantial reduction of gusty sound Necessary for sound recording

Newly developed wind jam UTS-N1 and smart leopard pattern design UTS-H10 were introduced. They show the enormous power in the outdoor shooting. It reduces gusty sound substantially.

These are suitable for Sony DSR-300A, 370, 390, 500WS, 570WS, 400, 450WS, HVR-Z1, HVR-A1 (External optional microphone), HL-DV5, etc.

### UTS-H10

Leopard pattern version

### UTS-N1
