

Specifications

RCS-A1J

PROTECH®

Main Features

It is a rain jacket for Sony HVR-A1J.

The shape of view finder part was changed to avoid raindrop more effectively.

For easy shooting with the opened LCD panel, a pellucid part is big.

The poach which is convenient for the carrying is attached as a supplied accessory.

Operation

Attach it like the photograph below.

In attachment, it isn't possible to do use with the light.

Be careful of the infiltration of water from the front hood part, the surface handle part, finder looking part specifically.

Shooting is possible with a little rain if using a towel and so on.
